We are pleased to now offer The Dryerbox®, a simple metal receptacle that installs between the studs in new construction behind the dryer and facilitates the collection and housing of the flex exhaust hose.

- Sturdy 22 gauge molded aluminized steel
- Locate the dryer right up against the wall
- Flex is protected from getting squished
- Reduces the fire hazard
- Lint build-up is minimized
- Over 750,000 Dryerboxes installed
- Applauded by Mechanical Inspectors
- Doubles as gas connection receptacle
- Meets code requirements as a clean-out
- Elbow eliminator, gain 5 ft. of duct run

**Exhaust Direction** | **Wall Size** | **Model Number**
--- | --- | ---
Upward | 2x6 | DVB425
Upward | 2x4 | DVB350
Downward | 2x6 | DVB4D
Downward | 2x4 | DVB3D

**Performance Data**

For Use:
- Dryer vent hose receptacle
- Doubles as gas connection receptacle
- Meets code requirements as a clean-out

Materials:
- Model 425 and 350 deep drawn with .028 aluminized steel (22 gauge)
- Model 4D and 3D deep drawn with .031 aluminized steel (21 gauge)
- UL Classified for a one hour wall
- Made in the USA

US Patent 5,476,183 and 6,419,102

---

**General Information**

Benefits:
- Locate the dryer right up against the wall
- Flex is protected from getting squished
- Lint build-up is minimized
- Efficiency is increased...clothes dry faster
- Dryer related service calls are almost eliminated
- Laundry room appears larger to prospects
- Reduces the fire hazard
- Socks and clothing can’t fall behind appliance

Features:
- No trim-ring piece is needed
- Elbow eliminator...gain 5 foot of duct run
- Surface is paintable, no masking needed
- Applauded by Mechanical Inspectors
- Over 750,000 Dryerboxes installed
The Dryerbox® Recognition and Awards for being the “Valuable” and “Hottest Product”
